

Notice of Construction

Langbrook Place Sidewalk Connection to Rockcrest Park

- Purpose:** Funds were set aside in the Fiscal Year 2016 Sidewalk Capital Improvements Program (CIP) budget to complete several small missing sidewalk connections. One of these connections is at the end of Langbrook Place. It was determined that completing the sidewalk around the cul-de-sac was not viable at this time. However, the Department of Public Works and the Department of Recreation and Parks are working together to create an accessible pedestrian connection into Rockcrest Park from Langbrook Place.
- Project Description:** This project will provide an accessible sidewalk connection from Langbrook Place into Rockcrest Park. The sidewalk currently ends in front of 1400 Langbrook Place (on the west side of the street) and does not begin again until 1403 Langbrook Place (on the east side of the street). The sidewalk will be four to five feet in width and will include a concrete pad for the existing picnic table in Rockcrest Park.
- Project Location:** Langbrook Place (west side) from the end of the existing sidewalk into Rockcrest Park.
- Timeline:** Construction will take place over one to two days in October/November, depending on contractor availability and weather. The road will not be impacted.
- Contact:** **Kevin Belanger**, Project Manager, at 240-314-8509 or kbelanger@rockvillemd.gov
